1. Inventory Module Overview

FMS^{NG} Application is an efficient ETRM System for Domestic Gas Trading, customized to meet business requirement of Shell Energy Marketing and Trading India Private Limited (SEMTIPL).

FMS^{NG} Inventory Module will allow to manage all critical Inventory elements of the trading system as listed below:

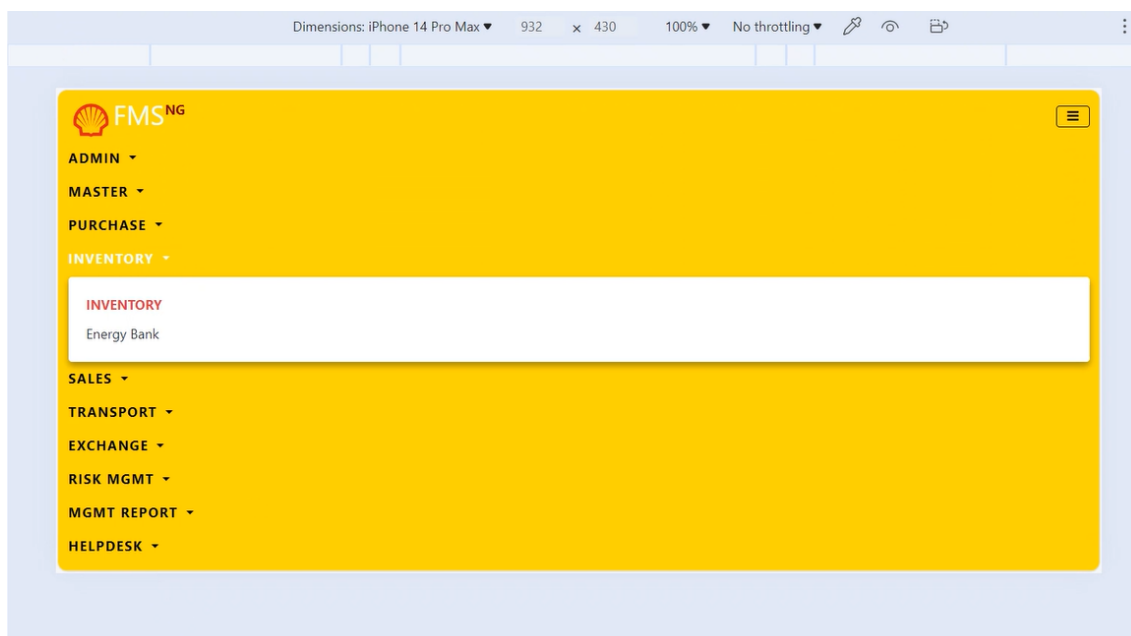

- Energy Bank

1.1. User Interface / Screen Designs

FMS^{NG} offers Responsive UI to enable usability via any smart phone, tab and laptop of any screen size. The Menus of Inventory module are as below:

The responsive mode view over iPhone simulation:

2. Menu Network / Screen Navigation

Menus in any Module are kept under different Groups for better categorization. The Groups under Inventory Module is Inventory.

2.1. Sub Module – Inventory

'Inventory' Group provides form to manage various Energy bank/Inventory related operations within the application.

2.1.1. Inventory → Energy Bank

This form incorporates 'Energy Bank' with 'Unloaded MMBTU' and 'Expected MMBTU' functionalities within the FMS^{NG} application.
