1. Master Module Overview

FMS^{NG} Application is an efficient ETRM System for Domestic Gas Trading, customized to meet business requirement of Shell Energy Marketing and Trading India Private Limited (SEMTIPL).

FMS^{NG} Master Module will create and manage all critical master elements of the trading system as listed below:

- Counterparty Creation and Management
- Entity Role Creation and Management
- Entity Contact Creation and Management
- Tax Master and Tax Structure Creation and Management
- Exchange/Interest Rate Management
- Meter Creation and Management
- Bank Master
- Holiday Master
- Energy Sector Master
- System will trigger event based emails as applicable
- Management and Audit Reports

1.1. User Interface / Screen Designs

FMS^{NG} offers Responsive UI to enable usability via any smart phone, tab and laptop of any screen size. The Menus of Admin module are as below:

MASTER ▾ PURCHASE ▾ INVENTORY ▾ SALES ▾ TRANSPORT ▾ EXCHANGE ▾ RISK MGMT ▾ MGMT REPORT ▾ HELPDESK ▾			
COUNTERPARTY	TAX	OTHER	REPORTS
Counterparty Master	Govt. Statutory Tax Master	Interest/Exchange Rate Master	Counterparty Matrix
Counterparty Master (IGX)	Tax Master	Interest/Exchange Rate Entry	Counterparty Audit Report
Counterparty Administration	Tax Structure	Bank Master	Entity Master Report
Entity Master		Energy Sector Master	
Entity Contact Master		Holiday Master	
Entity Notification Email Setup			
Entity Meter Master			
Entity Turnover Entry			
Entity Tax Master			
Entity TCS TDS Master			

The responsive mode view over iPhone simulation:

ADMIN ▾			
MASTER ▾			
COUNTERPARTY	TAX	OTHER	REPORTS
Counterparty Master	Govt. Statutory Tax Master	Interest/Exchange Rate Master	Counterparty Matrix
Counterparty Master (IGX)	Tax Master	Interest/Exchange Rate Entry	Counterparty Audit Report
Counterparty Administration	Tax Structure	Bank Master	Entity Master Report
Entity Master		Energy Sector Master	
Entity Contact Master		Holiday Master	
Entity Notification Email Setup			
Entity Meter Master			
Entity Turnover Entry			
Entity Tax Master			
Entity TCS TDS Master			

2. Menu Network / Screen Navigation

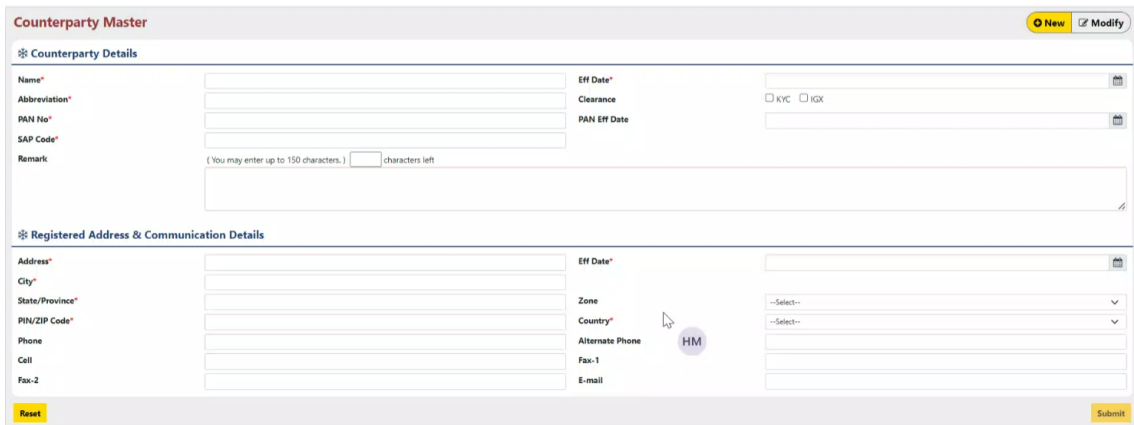

Menus in any Module are kept under different Groups for better categorization. The Groups under Master Module are Counterparty, Tax, Other and Reports.

2.1. Sub Module – Counterparty

‘Counterparty’ Group provides forms to manage various counterparties and entities within the application.

2.1.1. Counterparty → Counterparty Master

Counterparties in FMS^{NG} Application added/modified from this FORM by **User**.

To add a new Counterparty, Fill in the required information:

- **Name:** Enter the full name of the counterparty.
- **Eff Date:** Specify the date the counterparty information becomes effective.
- **Abbreviation:** Provide a short and recognizable abbreviation for the counterparty.
- **Clearance:** Select whether the counterparty is KYC verified.
- **PAN No:** Enter the counterparty's Permanent Account Number (PAN).
- **PAN Eff Date:** Specify the effective date of the counterparty's PAN.
- **SAP Code:** Enter the counterparty's unique SAP code.
- **Remarks:** Include any additional information or notes about the counterparty.

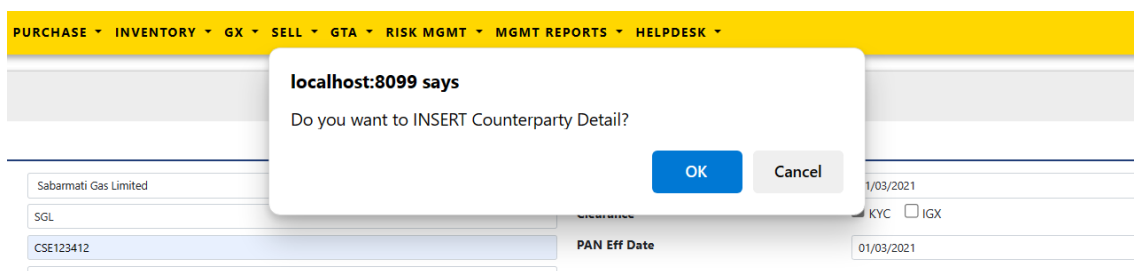

Registered Address:

- **Address:** Enter the counterparty's full registered address.
- **Effective Date:** Specify the date the registered address becomes effective.
- **City:** Enter the city where the counterparty is registered.
- **State:** Enter the state or province where the counterparty is registered.
- **Zone:** Enter the zone or district (optional) of the registered address.
- **Pin/Zip Code:** Enter the postal code of the registered address.
- **Country:** Select the country where the counterparty is registered.

Communication Details:

- Phone: Enter the counterparty's primary phone number.
- Cell: Enter the counterparty's mobile phone number.
- Alternative Phone: Enter an alternative phone number (optional) for the counterparty.
- Fax-1: Enter the counterparty's primary fax number (optional).
- Fax-2: Enter the counterparty's secondary fax number (optional).
- Email: Enter the counterparty's primary email address

After inserting all the details, click on “Submit” Button. A dialogue box asking your permission to insert the Counterparty in system appears as shown below:

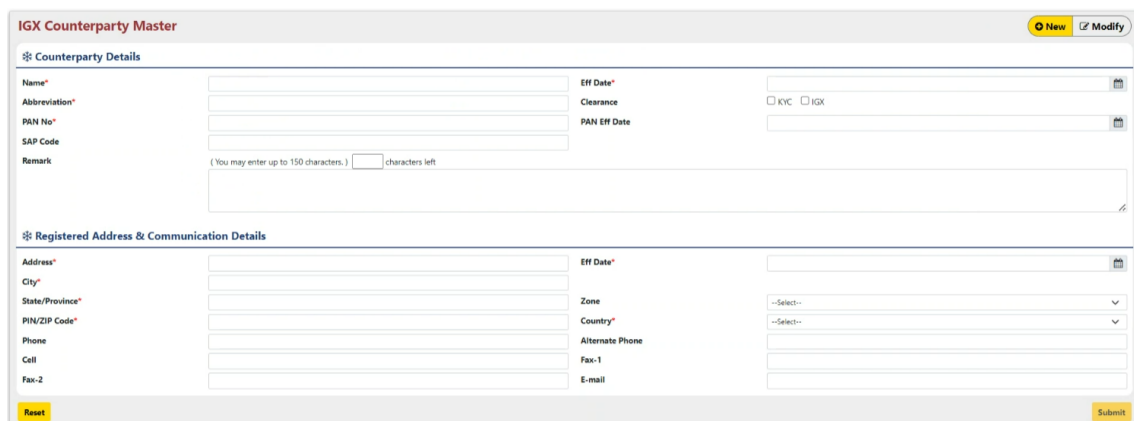

Press Ok. The status of counterparty insertion in system get displayed on the top of the screen.

2.1.2. Counterparty → Counterparty Master (IGX)

IGX Counterparties in FMS^{NG} Application added/modified from this FORM by **User**.

To add a new IGX Counterparty, Fill in the required information:

- **Name:** Enter the full name of the counterparty.
- **Eff Date:** Specify the date the counterparty information becomes effective.
- **Abbreviation:** Provide a short and recognizable abbreviation for the counterparty.
- **Clearance:** Select whether the counterparty is IGX certified.
- **PAN No:** Enter the counterparty's Permanent Account Number (PAN).
- **PAN Eff Date:** Specify the effective date of the counterparty's PAN.
- **SAP Code:** Enter the counterparty's unique SAP code.
- **Remarks:** Include any additional information or notes about the counterparty.

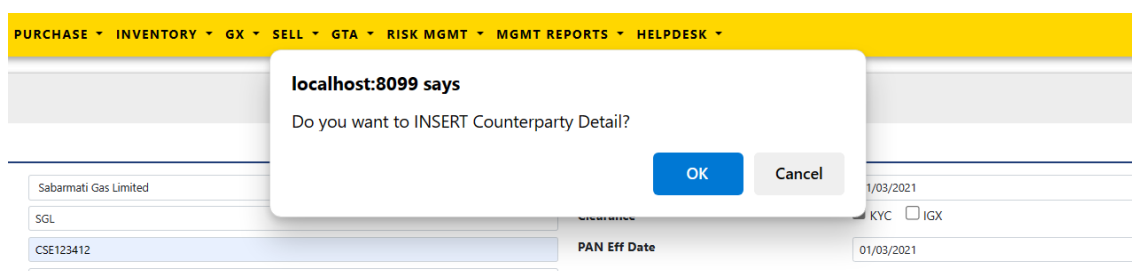

Registered Address:

- **Address:** Enter the counterparty's full registered address.
- **Effective Date:** Specify the date the registered address becomes effective.
- **City:** Enter the city where the counterparty is registered.
- **State:** Enter the state or province where the counterparty is registered.
- **Zone:** Enter the zone or district (optional) of the registered address.
- **Pin/Zip Code:** Enter the postal code of the registered address.
- **Country:** Select the country where the counterparty is registered.

Communication Details:

- **Phone:** Enter the counterparty's primary phone number.
- **Cell:** Enter the counterparty's mobile phone number.
- **Alternative Phone:** Enter an alternative phone number (optional) for the counterparty.
- **Fax-1:** Enter the counterparty's primary fax number (optional).
- **Fax-2:** Enter the counterparty's secondary fax number (optional).
- **Email:** Enter the counterparty's primary email address

After inserting all the details, click on “Submit” Button. A dialogue box asking your permission to insert the Counterparty in system appears as shown below:

Press Ok. The status of IGX Counterparty insertion in system get displayed on the top of the screen.

- Plant Name: Enter the official name of the plant.
- Plant ABBR: Create a short and unique abbreviation for the plant.
- Address: Provide the complete address of the plant.
- City: Enter the city where the plant is located.
- PIN: Provide the postal code (PIN) for the plant's location.
- State/Province: Select the state or province where the plant is located from the dropdown menu.
- Zone: Select the zone (North, South, East, West) where the plant is situated.
- Sector: Choose the sector the plant belongs to from the provided options.
- Effective Date: Specify the date from which the plant information becomes valid.
- Remark: Add any comments or notes relevant to the plant (e.g., specific details about its operation).
- Tax/ID Type: Select the type of tax identification.
- Tax/ID Name: Enter the name associated with the tax identification
- Tax/ID No.: Provide the actual tax identification number.
- Effective Date: Specify the date from which this tax information becomes valid for the plant.
- Remark: Add any additional comments or notes regarding the tax information.

Once you've filled in all the necessary details, click the "Submit" button at the bottom of the pop-up window to save your changes.

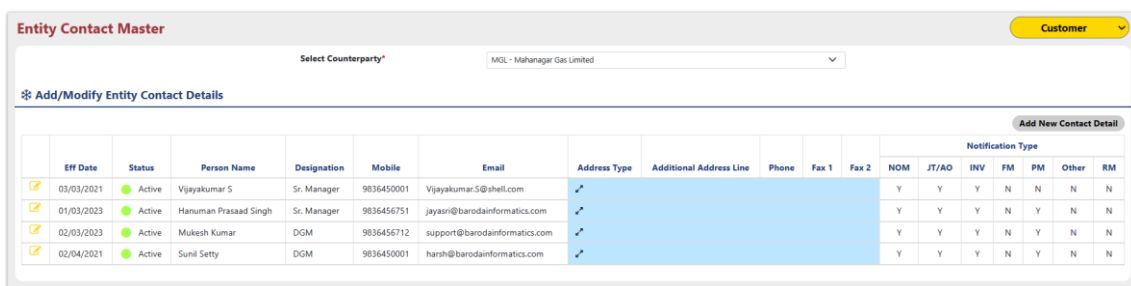

2.1.5 Counterparty → Entity Contact Master

The Entity Contact Master Form allows you to manage entities contacts details according to their associated roles.

The screenshot shows the 'Entity Contact Master' form. At the top, there's a 'Select Counterparty' dropdown menu. Below it, a section titled 'Add/Modify Entity Contact Details' contains a table. The table has columns for Eff Date, Status, Person Name, Designation, Mobile, Email, Address Type, Additional Address Line, Phone, Fax 1, Fax 2, and a 'Notification Type' section with checkboxes for NOM, JT/AO, INV, FM, PM, Other, and RM. A message at the bottom of the table states 'No Entity Contact Detail Configured!'.

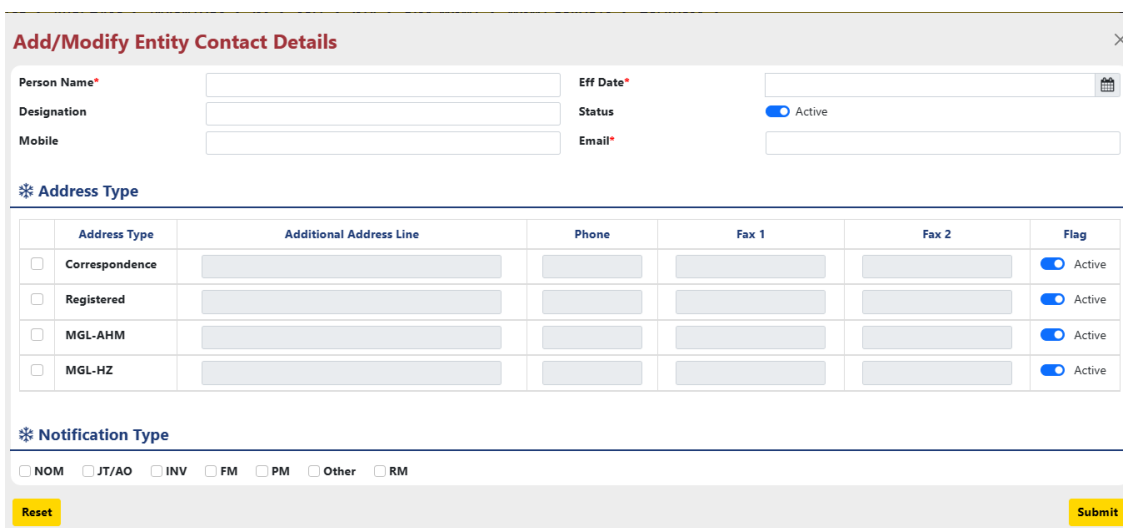

- Select the desired entity role from the first dropdown menu.
- Choose the specific counterparty from the second dropdown menu.

This screenshot shows the 'Entity Contact Master' form with data. The 'Select Counterparty' dropdown is set to 'MGL - Mahanagar Gas Limited'. The 'Add/Modify Entity Contact Details' table is populated with four rows of contact information. Each row includes an 'Add New Contact Detail' button.

Eff Date	Status	Person Name	Designation	Mobile	Email	Address Type	Additional Address Line	Phone	Fax 1	Fax 2	NOM	JT/AO	INV	FM	PM	Other	RM
03/03/2021	Active	Vijayakumar S	Sr. Manager	9836450001	Vijayakumar.S@shell.com						Y	Y	Y	N	N	N	N
01/03/2023	Active	Hanuman Prasaad Singh	Sr. Manager	9836456751	jayasi@barodainformatics.com						Y	Y	Y	N	Y	N	N
02/03/2023	Active	Mukesh Kumar	DGM	9836456712	support@barodainformatics.com						Y	Y	Y	N	Y	N	N
02/04/2021	Active	Sunil Setty	DGM	9836450001	harsh@barodainformatics.com						Y	Y	Y	N	Y	N	N

- The table below, titled "Add/Modify Entity Contact Details," will automatically display the contact information for the chosen counterparty based on the selected entity role.
- Click the "Add New Contact Detail" button to initiate adding a new contact person. This will open a modal where you can enter the contact's details.

The screenshot shows the 'Add/Modify Entity Contact Details' modal. It contains fields for Person Name, Designation, Mobile, Eff Date, Status (with an 'Active' toggle), and Email. Below these is the 'Address Type' section with a table for selecting address types and their flags. At the bottom, there's a 'Notification Type' section with checkboxes for NOM, JT/AO, INV, FM, PM, Other, and RM. 'Reset' and 'Submit' buttons are at the bottom.

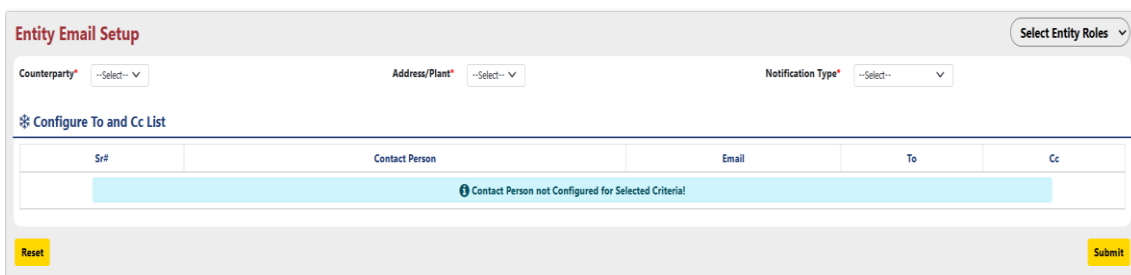

Address Type	Additional Address Line	Phone	Fax 1	Fax 2	Flag
☐ Correspondence					☒ Active
☐ Registered					☒ Active
☐ MGL-AHM					☒ Active
☐ MGL-HZ					☒ Active

- Person Name: Enter the full name of the contact person.
- Designation: Specify the contact person's job title or designation within the counterparty organization.

- **Status:** This section likely displays the current status of the contact person (e.g., Active, Inactive).
- **Mobile:** Enter the contact person's mobile phone number, including the country code.
- **Email:** Provide the contact person's primary email address.
- **"Address Type"** serves to categorize the purpose of the contact person's address. Selecting the appropriate type ensures the address information is used for the intended communication or purpose.
 - Correspondence
 - Billing
 - Plant(s)/Office(s)
- **Notification Type:**
 - NOM : Nomination
 - JT/AP : Joint Ticket / Allocation
 - INV : Invoice
 - FM : Force Measure
 - PM : Plan Measure
 - RM : Remittance
- Click the "Submit" button to save the newly entered contact information. To edit an existing contact, click the "pen icon" next to their effective date.

2.1.6 Counterparty → Entity Email Setup

The "Entity Email Setup" menu used to be a functionality within a system or application, related to managing email addresses for various entities.

- **Selected Entity Role:** The dropdown labeled "Entity" likely displays a chosen entity role. This selection determines which counterparties will be displayed in the next section.
- **Selected Counterparty:** A specific counterparty name is selected from the list. This indicates that the email setup details for this particular counterparty will be displayed.
- **Selected Notification Type:** This dropdown likely offers various options for the chosen counterparty about emails sent to the configured email addresses.

- Enter an Effective Date specifying when this tax structure becomes applicable.
- Add any relevant Remarks or comments about the chosen structure.
- Clicking "Submit" after selecting the tax structure, effective date, and remarks triggers a confirmation message to verify your selection before finalizing the process.

2.2. Sub Module – Tax

Tax within the system likely serves as a central hub for managing various tax-related functionalities within FMS^{NG}.

2.2.1. Tax → Government Statutory Tax Master

Government Statutory Tax Master menu allows users to manage and configure government-mandated taxes within the system. These taxes are likely pre-defined and regulated by the government.

Government Statutory Tax Master

Add/Modify Tax Detail

Tax Name*	--Select-- ▼	Tax Type*	--Select-- ▼
Status*	--Select-- ▼	Remark

Government Statutory Tax Detail

	Tax Name	Tax Type	Status	Remark
	PAN	General Identification Number	Active	
	TAN	General Identification Number	Active	
	GST TIN	Sales Invoice Tax Type	Active	
	CST TIN	Sales Invoice Tax Type	Active	
	VAT ID	Sales Invoice Tax Type	Active	
	Test Tax	Re-Gas Invoice Tax Type	Active	
	Test Tax 4	Sales Invoice Tax Type	In-Active	

Add/Modify Tax Detail table provides an overview of currently configured statutory taxes, potentially including:

- Tax Name: Name of the specific tax.
- Tax Type: Classification of the tax.
- Status: Indicates whether the tax is currently active or inactive.
- Remarks: Additional information might be displayed.

Clicking the pen icon next to a tax in the "Government Statutory Tax Master" menu allows you to edit its details. Clicking the "Submit" button saves your edits. However, before finalizing, a confirmation message will likely appear to verify modified tax information.

2.2.2 Tax → Tax Master

Tax Master Menu likely acts as a central location for managing various tax aspects within FMS^{NG} Application.

Tax Master					
	Tax Code	Tax Name Search...	Alias Search...	Tax Short Name	Status
	101	Integrated GST	IGST	IGST	Active
	102	Central GST	CGST	CGST	Active
	103	State GST	SGST	SGST	Active
	104	Zero GST	ZGST	ZERO GST	Active
	105	Value Added Tax	VAT	VAT1.0	Active
	106	Additional VAT	ADVAT	ADD. VAT	Active
	107	Tax Collection at Source	TCS	TCS	Active
	108	Zero VAT	ZVAT	ZERO VAT	Active
	109	Sales Tax	STAX	STAX	Active
	110	Zero Sales Tax	ZSTAX	ZERO STAX	Active

- **Add New Tax:** Clicking this likely opens a window to add a new tax type and its details.

- **Tax Category:** Defines if the tax applies to products/ services.
- **Tax Structure:** Tax Structure is auto fill on the bases of component selection.
- **Payable/Receivable:** Select Tax structure is Payable or Receivable.
- **Effective Date:** This field specifies the date from which the created tax structure becomes applicable.
- **Status:** Set Tax structure status active or inactive.
- **SAP Tax Code:** Auto fill on the bases of component selection values.
- **SAP GL:** Auto fill on the bases of component selection.
- **Remarks:** Additional details for Tax Structure.
- **Checkbox:** Select the checkbox next to each desired tax code you want to include in the structure.

- Rate (%): Enter the applicable tax rate as a percentage.
- Tax On: Choose from the dropdown menu how the tax is calculated:
 - On Value: Tax is based on the total value of the product/service.
 - On Tax Code: Tax is calculated based on the value of another tax component within the structure.
- SAP Tax Code: Enter the code linking this component to SAP.
- SAP GL: Enter the General Ledger account associated with this component in SAP.

Clicking "Submit" saves the new tax structure and prompts a confirmation alert before finalization.

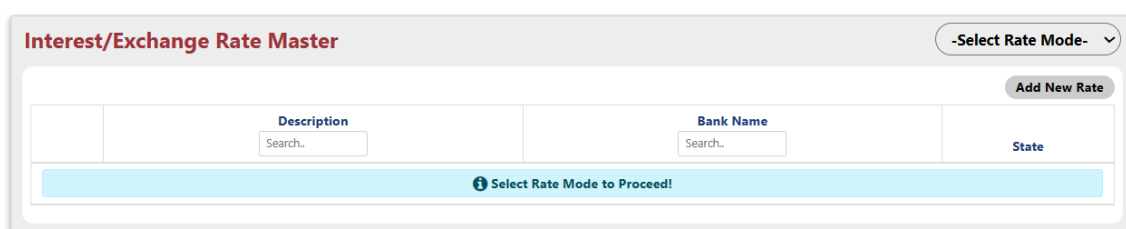

2.3 Sub Module – Other

"Other" sub module used to handle diverse system configurations through the following menus:

- Interest/Exchange Rate Master & Entry: Manage pre-defined interest rates and exchange rates used in the system.
- Bank Master: Set up and maintain information about the banks the system.
- Energy Sector Master: Configure details relevant to the energy industry
- Holiday Master: Define holidays or non-working days within the system.

2.3.1 Other → Interest/Exchange Rate Master

Interest/Exchange Rate Master allows users to manage interest rates and exchange rates applicable within the system. These rates are likely used for various financial calculations.

The screenshot displays the 'Interest/Exchange Rate Master' interface. At the top, there is a title bar with the text 'Interest/Exchange Rate Master' and a dropdown menu labeled '-Select Rate Mode-'. Below the title bar, there is a table with three columns: 'Description', 'Bank Name', and 'State'. Each column has a search box below its header. A blue banner at the bottom of the table area contains the text 'Select Rate Mode to Proceed!'.

- The "Select Rate Mode" dropdown lets you switch between managing interest rates or exchange rates within the "Interest/Exchange Rate Master" menu.

3.1.3 Reports → Entity Master Report

The 'Entity Master Report' menu acts as a centralized hub, offering a comprehensive overview of an entity's details such as:

- Encompassing counterparty information
- Registered address & communication details
- Correspondence & communication details
- Billing address & communication details
- Plant(s)/office(s) address & communication details.

Selecting an entity role and counterparty within the "Counterparty Matrix" displays a detailed page showcasing various aspects of the chosen counterparty.

Entity Master Report			
Select Counterparty		MGL - Mahanagar Gas Limited	
		Status: Active

This menu offers an "Export to Excel" function. To export data for multiple counterparties, simply choose the desired entity role **without** selecting individual counterparties. This ensures you capture all counterparties associated with the chosen entity role in the exported Excel file.

4 Auditing

The "Audit Trail" within the "Admin" module comprehensively tracks and stores all user actions performed across the various sub-menus of the "Master" module, providing a detailed record of changes made to the system's master data.
