1. Purchase Module Overview

FMS^{NG} Application is an efficient ETRM System for Domestic Gas Trading, customized to meet business requirement of Shell Energy Marketing and Trading India Private Limited (SEMTIPL).

FMSNG Purchase Module will create and manage all Domestic Gas Purchase workflow of the trading system as listed below:

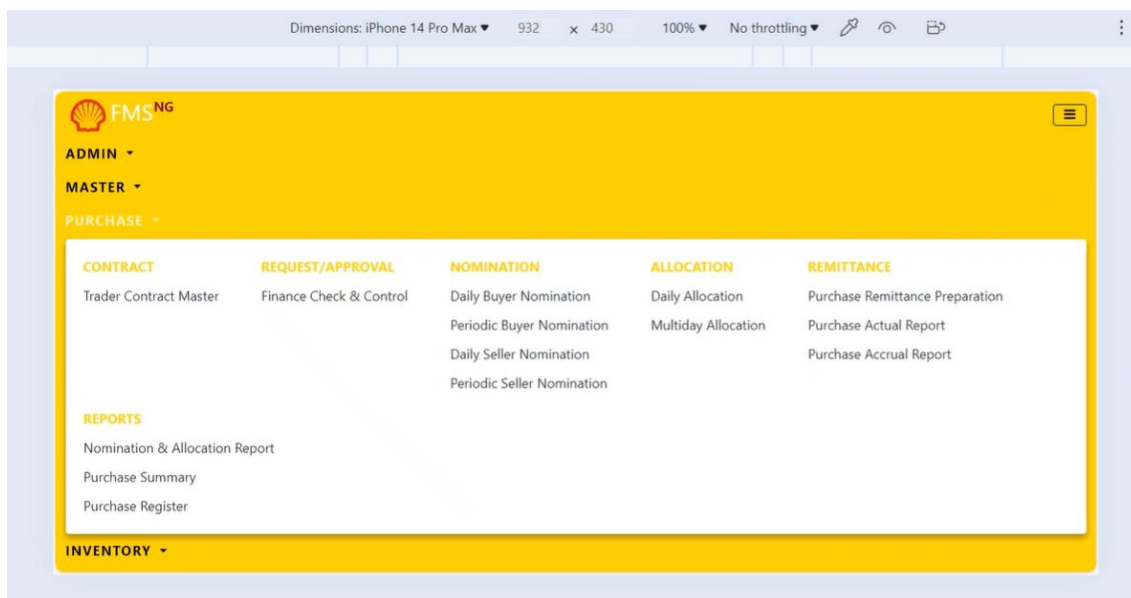

- Purchase Deal Creation (Bilateral and Gas Exchange Deals) & Management
- Daily Buyer and Seller Gas Nomination
- Daily Gas Allocation
- Party and System generated Remittance
- Interfacing with SAP P80 to flow Financial Information
- System will trigger event based emails as applicable
- Management Reports

1.1. User Interface / Screen Designs

FMS^{NG} offers Responsive UI to enable usability via any smart phone, tab and laptop of any screen size. The Menus of Purchase module are as below:

The responsive mode view over iPhone simulation:

2. Menu Network / Screen Navigation

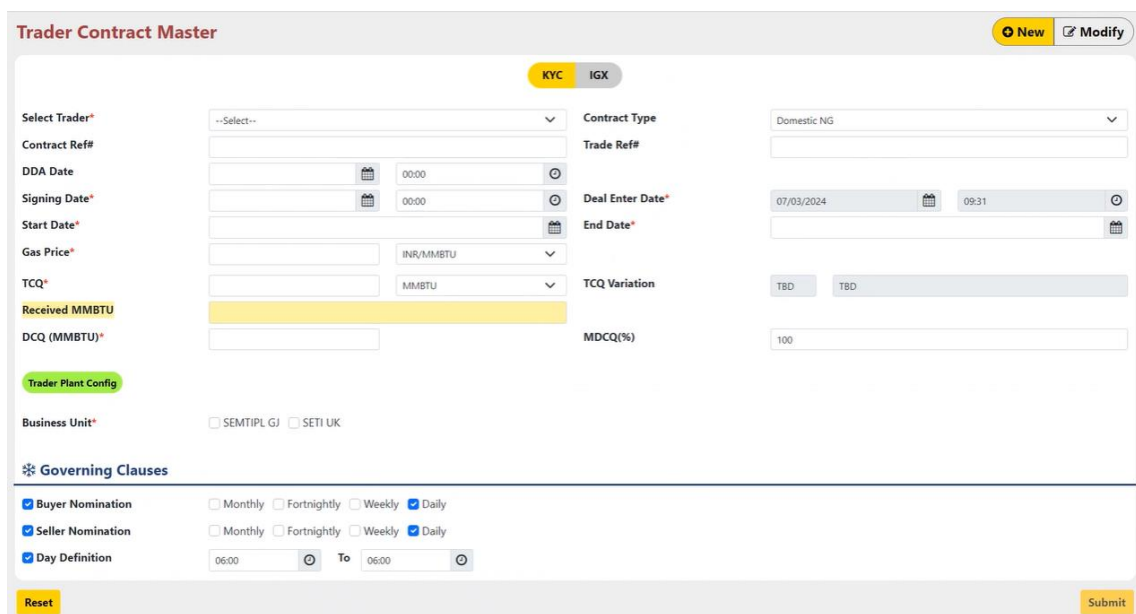

Menus in any Module are kept under different Groups for better categorization. The Groups under Purchase Module are Contract, Request/Approval, Nomination, Allocation, Remittance, Reports.

2.1. Sub Module – Contract

‘Contract’ Group contains FORM for Create and Modify Trader contracts.

2.1.1. Contract – Trader Contract Master

Trader Contracts in FMS^{NG} Application added/edited from this FORM by User who have access of Purchase Module.

Create New

No Invoice is Generated!

User can select “Month/Year” and “Billing Cycle” from the dropdown for which remittance will be generated.

Here User can generate remittance in two ways,

- First, go through all the nomination and allocation process as explained above after Creating Contract and then generate remittance for Trade
- Second, Create Free flow remittance for any adjustment like Credit Note, Debit Note, etc. associated with any Trade Remittance using “Create New” button.

Method 1 : Follow below steps to Generate remittance through all the Process:

1. Click on  button to Prepare remittance for which user wants to generate remittance. The popup new screen will open shown as below.

Purchase Remittance Detail

4. Auditing

The "Audit Trail" within the "Admin" module comprehensively tracks and stores all user actions performed across the various sub-menus of the "Purchase" module, providing a detailed record of changes made to the system's master data.
